Introduction

The world around us is changing. Florist Holland with her wide assortment and various services is ready for this. The quality and specifications of our indoor plants, outdoor plants and garden plant reflect not only the wishes of today’s consumers, Florist Holland is also focusing on the consumer of tomorrow. Based on the latest technologies and innovations, the enthusiastic Florist team, will continue to develop new varieties and sales concepts for the future. The combination of disciplines like breeding, sales, production and marketing leads to fantastic and innovative results.

Innovation, ambition and loyalty are the top priorities within Florist Holland. This means our partners and clients can expect the unexpected.

From early spring until the first frost, our Garvinea® Sweet series produces a non-stop supply of stunning super-sized flowers in bright and vibrant colours. With a high pest and disease resistance, cold and heat tolerance and an excellent rebloom habit, Garvinea® has proven being a reliable garden plant.

Our Patio Gerberas add instant beauty to outdoor living spaces. Patio Gerbera series has a wide range of varieties, from quicker crop times to unique varieties with exceptional flower shapes and sizes.

As the flower of happiness, our Flori Line® pot gerbera is a bright beauty that offers plenty of opportunities to mix and match for seasonal sales. From cute and rich flowering Flori Line® Micros to bold and bombastic Flori Line® Giants (NEW), the series fits in every production and marketing program.

The Sundayz® Outdoor Gerberas are developed especially for the use on terraces and balconies. Expect new vibrant colours and more compact plants that will add a beautiful look and longer shelf life than your average gerbera pot plant.

The breeding developments at Florist Holland are ground-breaking and we are very excited about future introductions in the world of Gerberas. This catalogue offers you a new perspective and a complete overview of our Gerberas from tissue culture and seedlings.

Florist Holland operates with a winning mentality and proceeds with a strong focus on co-creating partnerships within the international horticultural industry. Let’s create some extraordinary business together!
